

TOLTEC

TURF-TYPE TALL FESCUE

Like other Black Beauty varieties, Toltec exhibits a dark-green color with thick, tight density. Toltec is the finest bladed of the Black Beauty family and, like all of its relatives, does NOT shred when mowed. Toltec is a favorite among our sod growers and is perfect for municipal athletic field and homeowner lawns.

(Left): Toltec's leaves are the finest of any Black Beauty variety. The invisible, waxy, cuticle coating on all Black Beauty leaves helps resist shredding when cut.

(Above): Toltec's dark-green color and thick density are seen against a white paper background on a test plot in Corvallis, Oregon.

VARIETY	TURF QUALITY	COLOR	DENSITY	TEXTURE
	Corvallis, OR	Corvallis, OR	Corvallis, OR	Corvallis, OR
Toltec	6.4	6.1	5.8	6.3
Talladega	5.7	5.5	5.6	5.8
Hemi	5.7	5.9	5.6	5.9
Turbo	5.6	5.3	5.6	5.7
Sitka	5.5	5.6	5.4	5.4

Toltec's overall performance on Turf Quality, Color, Density, and Texture outperformed many other leading tall fescue varieties on the market today.

SEEDING RATES:

Overseeding: 3 – 5 lbs. per 1,000 sq. ft.
Bare Soil: 5 – 7 lbs. per 1,000 sq. ft.
