

# TONTO

TALL FESCUE

(RAD TF28)

Tonto is highly prized for its early dark green spring color that continues the entire season. Tonto roots deeply and has a pleasing leaf texture with a lower growth habit. Like other varieties of Black Beauty, Tonto is highly endophytic, making it naturally insect resistant. It is also disease resistant and heat and drought tolerant. Tonto creates a dense canopy of high quality turf. Tonto has earned its place to be among the elite Tall Fescues and has proven it's self to be a major component of the Black Beauty Tall Fescue Family.

## SEEDING RATES:

Overseeding:  
3 – 5 lbs. per 1,000 sq. ft.

Bare Soil:  
5 – 7 lbs. per 1,000 sq. ft.
