

BLUE PANTHER

KENTUCKY BLUEGRASS

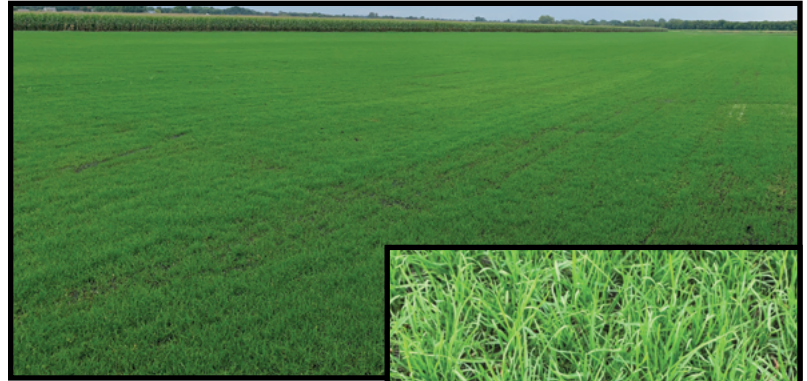

SEEDING RATES:

1 – 3 lbs. per 1,000 sq. ft.
 1,200,000 seeds per lb.

Blue Panther Kentucky Bluegrass is a product of Jonathan Green’s Turf Breeding Program, having been tested for color, disease resistance, drought tolerance and other environmental stressors. Blue Panther is the outcome of screening potential breeding candidates by using these tests. As a result, Blue Panther produces a densely rooted, dark-green lawn with a uniform growth habit. Blue Panther Sod is grown by leading sod growers across the USA!

Blue Panther Sod Field in Michigan.
